Kodi 17.5 1 Download Android

5 to crash on some Fire TV and Android devices It turns out the issues were related to changes made to joystick support on Android devices.. The Kodi Team has just released a new 17.5.1 version that fixes the issues that were causing version 17.. One reader affected by the issue has confirmed that updating from 17.5 to 17.5.1 on their Fire TV has fixed the issue.
